10.30am Induction Cooking

We'll show you why induction cooking is now becoming more popular than gas for all cooking, including stir fry's & slow cooking.

12.15pm Fan Grilling

Why would you want a separate griller demanding your attention when you can have an oven which produces a main course & dessert while you relax with a wine.

2.00pm Steam Cooking

See why steam ovens are being included in many of today's kitchens. Perfect for risotto, pasta, meat & desserts.

3.45pm Crisp pork crackle, succulent meat & crisp potatoes like everyone demands – come and see how easily it's achieved in a non-vented oven.
